*The journal is designed to focus attention
on developments in the whole field of
Design & Technology and across the age
phases of education. It provides a forum
for sharing and developing the expertise
which has been part of the subjects of art
and design, business studies, CDT, home
economics and information technology. It
pays particular attention to the
development of technology as a new
subject and brings together a wide range
of design and technological experiences
by providing case studies of good
practice in schools, polytechnics and
universities.*

*Contributions are welcome but
prospective contributors are invited to
send a synopsis of their contribution for
discussion before completion of the final
manuscript. All correspondence
concerning contributions and books for
review should be sent to the Editor at the
Department of Education, University of
Warwick, Coventry CV4 7AL.
